If there's something you want to say,
but you're struggling to find the right words,
VeryImportantNotes can help.

Thoughtfully trained with kindness,
care and common sense, it helps you organise
your thoughts, improve the flow of your
writing and express what you want to say
in your own voice.

Your voice. Your words. Just a little help
finding them.

*Because sometimes the hardest part isn't
knowing what you feel. It's finding the words,
try here.*
